Dear Mr East,

with respect to our long-time cooperation in the field of selling ISIC/ITIC/IYTC identity cards, which has lasted more than 6 years, I would like to provide support of GTS ALIVE activities in this regard. We are pleased to be part of the worldwide program supporting students, young people, and pedagogic public.

I acknowledge the influence of selling identity cards on increasing number of customers visiting our branches as well as increasing interest in our products especially among students, who are the important group of our customers. Cooperation with GTS ALIVE gives us a great opportunity to penetrate into this attractive market segment.

I strongly endorse our joint activities that have positive impact on perception and use of provided services to students and steady success in selling our products in branches in the Czech Republic.

I look forward to continued and mutually productive business cooperation in years to come.
